

Greetings from our ambassadors

Love tennis friends

With great pleasure, I watched the development of the Tennis Academy Seetal and supported it ideologically. In my opinion, the two initiators, Michel Bätcher and Jacek Niedzwiedzki, set a milestone in tennis education with their concept and their offer.

In the media you read a lot about tennis and about the professionals of yesterday and today. However, what it means to provide the needed perseverance and training constancy every day, to give up many beautiful things in adolescence and how important the personal environment is, I experienced myself as a former professional in tennis circus.

The Tennis Academy Seetal with its sponsoring concept developed a unique promotion model, which financially relieves children, adolescents, young cadre players but especially older people and people with a disability, I find worthy of support. The ideology of the two initiators and the Tennis Academy Seetal testifies to respect, social ideas and a lot of passion.

Help us and support the work of the Tennis Academy Seetal and be a part of this beautiful idea.

For the future I wish the Tennis Academy Seetal and your team a lot of joy, good luck and we are proud to be ambassadors of this idea and the concept.

With sporty greetings

Wojtek Fibak
